REVISOR OF REGULATIONS

APR 24 84 013060

Title 107 STATE ENERGY OFFICE

Chapter 2 - DEFINITIONS

"board" means the Building Energy Conservation Standards Board created by section 81-1610, NRRS.

"local code" means a building energy efficiency code which has been adopted by a county, city or village and which meets the equivalency requirements of Section 81-1618, NRRS.

"prime contractor" means the person(s) or entity(s) who has a contract with the owner and falls within the definition of contractor listed in section 81-1609, NRRS. Prime contractor may also mean a property owner who performs the work of a prime contractor or performs the work him/herself.

"story" (of a residential building) means that portion of a building included between the upper surface of any floor and the upper surface of the floor above, except that the topmost story shall be that portion of a building included between the upper surface of the topmost floor and the ceiling or roof above. If the finished floor directly above a basement, cellar or unused under-floor space is more than six feet above grade for more than 50 percent of the total perimeter, or is more than 12 feet above grade at any point, such basement, cellar, or unused under-floor space shall be considered a story.

"standard" means the Nebraska Building Energy Conservation Standard, which is the 1983 edition of the Model Energy Code of the Council of American Building Officials.

All other definitions as used in these Rules and Regulations are those set forth in section 81-1609, Nebraska Revised Statutes, or listed in the Standard.
